

Year 1 are supporting the charity:

We chose this charity because bumblebees are declining and we need them to do an essential job.

If bumblebees didn't pollinate our flowers and plants, then it would cost the government a lot of money to replicate what the bumblebees do for us.

We can all help save bumblebees by growing bee-friendly flowers in our gardens from early spring until autumn. Check [www.bumblebeeconservation.org](http://www.bumblebeeconservation.org).

**Help us save the bees!**
