English – A Journey

Christopher Columbus was a man who loved to go on journeys and explore new places. He went on many and discovered lands that we had never travelled to before.

We would like you to go on a journey, it doesn't have to be far but think about what you can see around you.

Take notes from your journey and when you get home, create your very own map.

Please bring in your maps for us to use on our display.

Science – Create a Lifecycle

This term we will be identifying fish, amphibians, reptiles, birds and mammals.

Using your local library, the internet and the knowledge of a grown up, find out about a specific animal from one of the categories above.

You all remember learning about the lifecycle of a frog in Reception. Can you find out about and create a lifecycle of the animal you chose?

Please write down/type up the lifecycle and bring it in for us to display to the rest of the school.

Spring 1 Project Passport!
Year 1

Helping you with your learning journey for your project based learning this half term!

Over this half term, you are learning about **Christopher Columbus.** To help with your learning on this topic and encourage lots of research and extra fun, you are to **choose and complete 2 of these activities** from the 5 provided.

These activities are to be completed throughout the half term so you can use what you have learnt at school and complete your own research at home! They can be organised and presented in any way you want!

The deadline for your **2 chosen activities** is:
Friday 10th February 2017
Please speak with your class teacher about your ideas and if you have any questions.

Art – Design and Create Your Own Sailing Ship

You could choose to use match sticks, plastic bottles, boxes or even twigs to make your own sailing ship fit for Christopher Columbus!

Please bring it in for us to display to the rest of the school.

Computing – Create an information booklet!

Use your computing skills to create an information booklet that includes text and images! A useful piece of software you could use is Microsoft Powerpoint or Publisher.

The booklet should include facts and information about Christopher Columbus.

Maths

Whilst on board his ship, his diet was limited. Christopher Columbus and his crew ate olive oil, molasses, cheese, honey, raisins, rice, garlic, almonds, sea biscuits, dry legumes such as chickpeas, lentils, beans, salted and barrelled sardines, anchovies, dry salt cod and pickled or salted meats (beef and pork) and salted flour.

Can you create a recipe using some of the ingredients above?
A real challenge would be to follow the recipe and make whatever you've designed.
