

## English – A fact file

Prehistoric animals are very different to the animals we know nowadays. There are lots of different dinosaurs which have been discovered by archaeologists. These include – tyrannosaurus rex, diplodocus, stegosaurus and triceratops! Imagine you are an archaeologist and are writing about your findings of these prehistoric animals. Design a fact file of our the facts you have found.

You include:

- Different types of species
- Dates of when the animals were alive
- Facts about the animals
- Extinction
- Pictures and diagrams
- Did you know? facts

## Science – Create a skeleton!

The skeleton is very important, to not only the human body, but also to animals. There are 206 bones in an adult skeleton!

Can you create a model or picture of a skeleton naming all the bones in the human body?

Western House Academy

## Spring 1 Project Passport! Year 3

*Helping you with your learning journey for your project based learning this half term!*

Over this half term, you are learning about **Deadly Dinosaurs** to help with your learning on this topic and encourage lots of research and extra fun, you are to **choose and complete 2 of these activities** from the 5 provided.

These activities are to be completed throughout the half term so you can use what you have learnt at school and complete your own research at home! They can be organised and presented in any way you want!

The deadline for your **2 chosen activities** is:  
**Friday 2nd February 2017**

Please speak with your class teacher about your ideas and if you have any questions.

## Art – Sketch your own dinosaur!

Imagine you are designing a dinosaur model for the Natural History Museum! Draw a detailed picture of your dinosaur with its name and features. Make sure you label your diagram with the materials you might need to make it.

Please check with an adult before using materials.

## Computing – Create an information booklet!

Use your computing skills to create an information booklet that includes text and images! A useful piece of software you could use is Microsoft Publisher.

The booklet should include facts and information about Deadly Dinosaurs.

## Maths – Become a maths teacher!

Design a problem based around dinosaurs for the class to solve!

You could use:

- Addition
- Subtraction
- Multiplication
- Division
- Fractions

Teach the class to solve your problem!
